

5/12/99

Dear Commissioner Newmyer

I read in the Nutrition
Action news ^{5212 '99 MAY 21 P1:41} that CSP, Inc.
has filed a petition with
the FDA asking that
medically useful antibiotics
be banned from animal
feed. I support this
petition & urge you to take
swift action on it. I
like many others have
allergies to various antibiotics
including penicillin. I've
had pneumonia 3 times in
last 8 yrs and finding a
antibiotic that works and
that I'm not allergic to has
become increasingly expensive.

Thank you.
